OBJECTIVE — CYBER TODDLER SOC INTERN

Second-year Cybersecurity student seeking **Cybersecurity Operations, SOC & Threat Intelligence Intern** at Cyber Toddler (Remote, India). Hands-on with AI-Based NIDS, Secure API (JWT/Helmet/Rate-Limit), SIEM concepts & log analysis. Eager to contribute to SOC monitoring and threat intelligence workflows.

EDUCATION

Vellore Institute of Technology (VIT), Vellore — B.Tech Cybersecurity (25BCY10113) | 2025–2029 (Expected)

Coursework: Network Security, System Security, Secure Coding, Python for Security, Linux

SKILLS — ALIGNED TO JD

SOC & SIEM:

SOC Operations, Security Monitoring, SIEM Concepts, Log Analysis, Alert Triage, Incident Reporting

Cybersecurity:

NIDS, Threat Detection, Secure Coding, JWT, Helmet, Rate-Limiting, Zod Validation

Tools: Linux, Git/GitHub, Wireshark (learning), Burp Suite (learning), Vercel/Render, VS Code

Languages: Python (Security), C++ (DSA), JavaScript (Node/Express), HTML/CSS • **DB:** MongoDB (basic)

PROJECTS

1. AI-Based Network Intrusion Detection and Alert System

Flagship

Python

AI-driven NIDS for network anomaly detection & real-time alerting. Implements log analysis → detection → alert (SIEM-like). [GitHub ↗](#)

- Python/ML, traffic analysis, alert system — core SOC relevance

2. Secure Notes API — annantpundir_25BCY10113

Live on Render

Security

Hardened REST API: JWT (15m, bcrypt 12), Helmet (12+ headers), Rate-Limit 5/15m auth, 100/15m global, Zod XSS block. [GitHub ↗](#)
[Live ↗](#) [Health ↗](#)

- Verified live: GET /api/notes without JWT → 401, XSS → 400, 6th login → 429, health → 200
- SECURITY_REPORT.md documents attack → defense → failing curl

3. Portfolio (Cyber-Focused) & DSA Support

Dark-theme portfolio highlighting NIDS + Secure API; C++ DSA playground (Arrays, Hashing, Two Pointers) for analytical support.
[Portfolio ↗](#) [DSA ↗](#)

CERTIFICATIONS

- **Cybersecurity** — Coursera — [Verify](#)
- **AI & Machine Learning** — VITYARTHI — [Verify](#)
- **Python** — VITYARTHI — [Verify](#)

ADDITIONAL

Remote-only (India) as per Cyber Toddler posting • DSA daily in C++ (70+ patterns) • Interests: SOC, Threat Intel, Network Security • Live demos & docs available.
